

PROFILE UI/UX designer with an eye for detail, empathy for users, and a multicultural perspective. Skilled in design systems, accessibility, and collaboration, creating clear, inclusive products that build trust.

PROJECTS Website Design & Development | University of St. Gallen Powerlifting Club

Remote | Apr 2025 – May 2025

- Designed and launched a responsive WordPress site to promote a 6-week training program and drive sign-ups
- Built reusable UI components for future content updates and events
- Streamlined user flows, improving conversion to university registration

Tools : WordPress, Figma, Illustrator, Photoshop, HTML/CSS

UI/UX Web App Design | Onward (Academic Project)

Vancouver | Sep 2024 – Dec 2024

- Designed web app interfaces for an interview prep tool supporting internationally educated nurses
- Created user journeys and interactive prototypes, validated through usability testing
- Delivered final UI specs and MVP-ready assets for development team hand-off

Tools : Figma, Illustrator, Photoshop, Next.js

Mobile App Design | FairShare (Academic Project)

Vancouver, BC | Jan 2024 – May 2024

- Designed mobile-first interface for group expense tracking
- Conducted user research, developed personas, and mapped user flows
- Built branded Figma prototypes and assets for smooth dev hand-off

Tools : Figma, Illustrator, Photoshop, HTML/CSS

SKILLS Interface & Visual Design

Design systems, Component-based design, Responsive layouts, Accessibility-first design, Visual hierarchy
